STEFAN TUMEY

SENIOR SOFTWARE ENGINEER

RESUME OBJECTIVE

Aiming to grow, learn and contribute. Looking to leverage my knowledge and experience into a senior software engineering role.

EXPERIENCE

SENIOR SOFTWARE ENGINEER
Rocket Mortgage, Detroit, MI / July 2021 – Present

- Developed and managed CI/CD pipelines in Azure DevOps Server and CircleCI
- Developed and maintained cloud-based resources using Terraform
- Developed and maintained several distributed APIs in AWS
- Administrator for team's Kubernetes non-production and production clusters
- Provided mentorship and offered knowledge sharing sessions for fellow engineers

SOFTWARE ENGINEER
Quicken Loans, Detroit, MI / May 2017 – July 2021

- Broke a monolith application into microservices on AWS
- Migrated several apps off Docker Enterprise Edition hosted on-premises into Amazon ECS
- Developed unit and automated tests to maintain optimum code coverage

QUALITY ASSURANCE / BUSINESS ANALYST INTERN
Quicken Loans, Detroit, MI / May 2015 - May 2017

- Tested new mortgage software to ensure desired outcome
- Detected and troubleshot bugs
- Reviewed software engineer code to ensure efficiency
- Scheduled and coordinated meetings with business partners for requirements gathering
